British Steel – UK structural sections price increase

Dear Customer,

Further to the continued surge in raw materials costs, I am writing to inform you that British Steel will be raising transaction prices for structural sections by £30 per tonne for all new orders from 1st September 2020.

This increase is in addition to the announcement from the 17th July 2020.

If you have any questions concerning this announcement, please do not hesitate to contact me or the usual member of your account management team.

Yours sincerely,

Ben Cunliffe
